

RECOMMENDATION TO GISB EXECUTIVE COMMITTEE

Request #: R96031

Type of Request(check all that apply) (E-5):

- A-3 New Document (Data Dictionary attached)
- A-1 New Data Element (Data Dictionary attached)
- A-6 Revision to Data Element (Data Dictionary attached)
- A-2 New Code Value (Table attached)
- A-2 Revision to Code Value (Table attached)
- Revision to Business Process Documentation
- Revision to X12
- A-4 New Business Practice Standard
- A-5 Revision to Business Practice Standard

Abstract / Discussion (E-1, E-3, E-4):The request is for the addition of a data element to indicate a status of "not-confirmed" on the Scheduled Quantity. This would allow the TSP to avoid invocation of the "lesser of" rule when there is a possibility that a confirmation may still be made after the Scheduled Quantity document has been issued. Some METF members felt that avoidance of the "lesser of" rule is exceeding the standard. Others felt that this would subvert the spirit of the standard.
