

RECOMMENDATION TO GISB EXECUTIVE COMMITTEE

Request #: R96097

Type of Request (check all that apply) (E-5):

- A-3 New Document (Data Dictionary attached)
- A-1 New Data Element (Data Dictionary attached)
- A-6 Revision to Data Element (Data Dictionary attached)
- A-2 New Code Value (Table attached)
- A-2 Revision to Code Value (Table attached)
- Revision to Business Process Documentation
- Revision to X12
- A-4 New Business Practice Standard
- A-5 Revision to Business Practice Standard

Abstract / Discussion (E-1, E-3, E-4):

The current Nomination allows for mapping multiple nominations under multiple contracts within one Nomination (850). The Nomination Quick Response BAK segment indicates the status of the entire nomination with the data element Transaction Status Code. If some of the contracts (at a detail level) are accepted and some are rejected, there is no way to indicate the status for each contract. It was determined that trying to indicate what kind of warnings/errors exist at the contract/nomination level is redundant with the error/warning code naming convention. So, the Technical Subcommittee recommends that the following codes be valid for the Transaction Status Code and all other codes deleted:

AE - Errors or warnings occurred in the Transaction. Some Nominations may be accepted and some may be rejected.

AT - The entire Transaction and all Nominations were accepted.

RD - The entire Transaction was rejected due to header level errors.

Applicable Documents:

Nomination Quick Response 1.4.2

Associated Revisions:

Is Revision Required to Support an Existing GISB Standard? If So, State Standard

Number and Language: No

Applicable to Upstream/Downstream Process? If So, State Task Force Referred To: No

Sense of the Room Results: 15 In Favor; 0 Opposed

Executive Committee Sponsor: _____

GISB Subcommittee/Task Force: Technical Subcommittee

Requester: Enron
