Clarification or interpretation request:

What should occur the datasets if a customer does not have a Dun & Bradstreet Number? Especially in the case of government run agencies, such as towns and bases.

Possible interpretations or clarifications, if known:

1. Customer should not be allowed to perform Capacity Release (or any X.12 Dataset Transaction).
2. Customer should acquire a Dun & Bradstreet Number.
3. Proprietary Code should be added back to all datasets (including nominations, gas flow, and invoicing).

Thanks!
