3. Description of Proposed Standard or Enhancement

Koch Gateway Pipeline Company requests that a new dataset be created and a new code value be added to the Upload of Request for Download (and associated response) datasets. Both would be mutually agreeable.

4. Use of Proposed Standard or Enhancement (include how the standard will be used, documentation on the description of the proposed standard, any existing documentation of the proposed standard, and required communication protocols):

The additional code value added to the data element "Data Sets Requested" in the datasets "Upload of Request for Download of Posted Datasets" and "Response to Upload of Request for Download of Posted Datasets" would be used to allow an Operator to request the download of the physical meters and volumes behind an aggregate/logical meter that is not allocable.

The new dataset would be the download in response to this request itemizing each of the nominatable aggregate meters and its associated physical meters and volumes.

5. Description of Any Tangible or Intangible Benefits to the Use of the Proposed Standard or Enhancement:

This download would identify to an Operator the measured volumes associated with physical meters behind an aggregate meter.
