

NORTH AMERICAN ENERGY STANDARDS BOARD

NAESB 101 WEBINAR

October 15, 2026

NAESB is pleased to announce that the NAESB 101 Webinar will be held on Thursday, October 15, 2026 from 2:00 PM – 3:00 PM Central. Both members and nonmembers are welcome to join this free webinar, which will introduce attendees to NAESB, provide an overview of the organization's American National Standards Institute accredited standards development process, and explain how NAESB's work supports efforts of the wholesale and retail natural gas and electric industries. The webinar will also review NAESB's existing catalogue of Business Practice Standards.

For thirty years, NAESB, and its predecessor organization the Gas Industry Standards Board (GISB), has served as a forum to support the development of voluntary, consensus-based business practice standards designed to promote more competitive and efficient natural gas and electric markets. With few exceptions, all NAESB wholesale market standards have been adopted into regulation by the U.S. Federal Energy Regulatory Commission and mandated for federally jurisdictional entities, and many of the NAESB retail market standards have served as a basis for regulations adopted by various state authorities.

FORMAT?

The course is an interactive webinar presentation.

WHEN?

Thursday, October 15, 2026 from 2:00 PM to 3:00 PM Central

WHO?

This course is open to all NAESB members and nonmembers. We encourage participation from those who are responsible for implementing standards.

HOW TO REGISTER?

To register and receive instructions on how to participate in the webinar, please provide the information requested through the following hyperlink:
