

NORTH AMERICAN ENERGY STANDARDS BOARD

NAESB 101 WEBINAR

November 4, 2024

NAESB is pleased to announce that the NAESB 101 Webinar will be held on Monday, November 4, 2024. For thirty years, NAESB has served as a forum to facilitate the development of consensus-based, voluntary business practice standards designed to promote more competitive and efficient natural gas and electric markets. We invite you to join this free webinar, open to members and nonmembers alike, that will introduce attendees to NAESB, overview the organization's American National Standards Institute accredited standards development process, and explain how NAESB's work supports efforts of the wholesale and retail natural gas and electric industries. Additionally, the webinar will review the existing catalogue of NAESB Business Practice Standards. With few exceptions, all NAESB wholesale market standards have been adopted into regulation by the U.S. Federal Energy Regulatory Commission and mandated for federally jurisdictional entities, and many of the NAESB retail market standards have served as a basis for regulations adopted by various state commissions.

FORMAT?

The course is an interactive webinar presentation.

WHEN?

Monday, November 4, 2024 from 3:00 PM to 4:00 PM Central

WHO?

This course is open to all NAESB members and nonmembers. Those who are responsible for implementing standards are urged to attend.

HOW TO REGISTER?

To register and receive instructions on how to participate in the webinar, please provide the information requested through the following hyperlink:
