North American Energy Standards Board eTariff Vendor Listing

Brown, Williams, Moorhead & Quinn, Inc. (BWMQ)

- Background: (“BWMQ”) is a leading energy consulting firm that has been providing advice and assistance to clients for more than twenty years. BWMQ provides comprehensive energy related services to hundreds of clients, including electric, natural gas and oil pipeline companies, local distribution companies, energy producers, trade associations, shippers and federal and state agencies. BWMQ has successfully supported the Federal Energy Regulatory Commission’s electronic tariff filing requirements for over a decade. The BWMQ FERC eTariff Program (“eTariffPro”) supports natural gas, electric, and oil pipeline eTariff filings. BWMQ provides a cost-effective, pay-as-you-go methodology for assisting clients with their FERC eTariff filings.

North American Energy Standards Board

eTariff Vendor Listing

Links Technology Solutions, Inc.

- Background: Links Technology (LINKS) is a leading IT services and consulting firm, headquartered in Schaumburg, Illinois. Founded in 1999, LINKS acquired UNICON back in 2009. UNICON first introduced the Tariff Filing & Management System (TFMS) in 1998 to facilitate the filing and management of FERC gas tariffs. LINKS and UNICON worked together to bring Links Technology's **TariffShark** to the market on April 1, 2010 in order to meet FERC's Order 714 requirements. Today, **TariffShark** is the leading eTariff solution in the marketplace serving hundreds of companies in the gas, electric and oil pipeline industries. LINKS also introduced **TariffShark Legal** to assist law firms in making eTariff filings on behalf of their clients.

REGA SOLUTIONS (Previously eWizards)

- Background: Previously known as eWizards Inc. REGA SOLUTIONS is a leading eForms and eTariff software and solution provider for utility companies. Founders of REGA have previously worked for the Federal Energy Regulatory Commission and understand full eTariff backend processes. REGA Solutions will be available for many different platforms. Currently our company provides eForm solutions for many other Commercial and Federal clients. REGA will provide full life cycle solution for eTariff's and other FERC related forms. We are a DC based local company and we can solve your FERC related issues for a minimal consulting fee.

North American Energy Standards Board eTariff Vendor Listing

Trinity Technologies

- Background: Trinity Technologies is a business consulting and technology company founded in 1995 and specializing in content management solutions and services. With special expertise in the Utilities sector, Trinity's customers include major power generation, power distribution and pipeline management organizations. The Trinity eTariff solution meets the required FERC electronic tariff Order 714 requirements and provides an automated review/approval filing process, maintenance of tariff versions and rules validation prior to submissions – which in turn mitigates risk, reduces turnaround, and creates a sound corporate tariff submittal process for your energy organization.

North American Energy Standards Board eTariff Vendor Listing

Venus eTariff

- Background: **Venus Tech Inc.** was founded in 2010 by a former senior systems contractor who designed and developed the complex eTariff system currently used at the FERC. Because of our unique knowledge and insight when it comes to the ins and outs of attaining FERC order 714 compliance, we are able to offer the best industry quality. We seek to help energy companies manage their tariff filings with a simple, easy-to-use and affordable solution without software or hardware installations.
