

NORTH AMERICAN ENERGY STANDARDS BOARD

EDUCATIONAL WEBINAR ON THE HYDROGEN MARKETS

MARCH 13, 2024

NAESB is pleased to announce that the Department of Energy (DOE) has agreed to provide NAESB members and other interested parties with a presentation on the current status of the developments of the Regional Clean Hydrogen Hubs (H2Hubs) and the activities of the newly selected consortium created to accelerate demand-side mechanisms supportive of a clean hydrogen market. The presentation is intended to bring the industry and NAESB members up to speed as NAESB considers the initiation of a project to develop a standardized contract to support hydrogen transactions, similar to the NAESB Base Contract for Sale and Purchase of Natural Gas. The foundational support that the DOE provided to both GISB and NAESB was instrumental in our formation, and we are extremely grateful for the Department's continued commitment to our organization over the last 30 years.

FORMAT?

The session will be a one-hour webinar utilizing the Zoom platform.

WHEN?

Wednesday, March 13, 2024 – 1:00 pm to 2:00 pm, Central

WHO?

This session is open to all interested parties, and the meeting participation fee will be waived for non-members seeking to join this webinar.

HOW TO REGISTER?

Availability to participate in this session is limited, and NAESB members will be given priority if capacity is exceeded.
